TECHNICAL SKILLS

- ✔ Data Analysis
- ✔ Data pre-processing
- ✔ Data cleaning
- ✔ Data Wrangling
- ✔ Data Visualization

Certification

- Power BI Workshop
- Completion
Certificate for
Introduction to
Microsoft Excel
- DDI Statement by Great Learning
- Excel Dashboards visually Udemey
- Great Learning – Data Analyst
- Udemey – Excel Dashboard for Visualization.
- Great Learning – Excel for Intermediate Level.

Language

- ✔ English
- ✔ Hindi
- ✔ Marathi

SOFTSKILLS

- Problem-Solving
- Teamwork
- Adaptability
- Adaptability

Profile

Skilled in data analytics with comprehensive training in Python, Excel, SQL, and Tableau and Power BI. Proficient in Python libraries for data manipulation, statistical analysis, and machine learning. Excel mastery includes data organization, formulas, pivot tables, and dynamic visualization. Experienced in SQL for querying databases and extracting valuable insights. Tableau for creating interactive, visually compelling dashboards and reports.

Education

- Symbiosis -Data Associate (Pune) (2024)
- Great Learning – Data Analyst (Pune) (2023)
- SPPU University – B.B.A.(CA) Shree Dnyaneshwar Mahavidyalaya (2018-2021)
- Maharashtra State Board HSC Science Trimurti Public School (2016-2018)
- Maharashtra State Board – SSC Bhausaheb Firodiya High School. (2015-2016)

SKILLS:

- Programming Languages: Python , SQL
- Machine Learning/AI: Deep Learning, Predictive Modeling, Statistical Modeling
- Tools & Libraries: Scikit-learn, TensorFlow, Keras, OpenCV, NumPy, Seaborn
- Data Visualization: Tableau, Power BI, Excel Charts, Jupyter Notebook
- Other Skills: Data Mining, Computer Vision, Data Analysis, Data Cleansing, Business Analytics
- Additional (advanced-excel)

Projects

- Project : Data – Pre-Processing , Exploratory Data Analysis And Data Visualization project (Python)
- . Dataset Used : YouTube Dataset |Google App Store Dataset | Honey Production Dataset | National Hockey Stats. Description : Analyzed and Visualized different data using python. Collected and Cleaned dataProject : Car Claims and Insurance (Tableau)
- Description: Analyzed car claims and insurance data to uncover patterns and insights. Created interactive dashboards for decision-making.
 - Skills: Dashboard Creation, Data Visualization, Business Intelligence
 - Tools: Tableau
- Project : Travego (SQL)
- Description: Wrote SQL statements to insert and retrieve data from a relational database. Developed ER diagrams and performed complex queries.
 - Skills: SQL, Data Constraints, Joins, Subqueries
 - Tools: MySQL, DDL, DML, DQL
- Project : Terro's Real Estate Agency (Excel)
- Description: Identified market trends and property insights using advanced Excel functions, pivot tables, and charts.
 - Skills: Data Cleaning, Data Validation, Regression Analysis, EDA
 - Tools: Excel Data Analysis Tool Pack
